Sumiblast Crack and Crevice Residual Aerosol

ACTIVE CONSTITUENTS:	2.5 g/kg	CYPHENOTHRIN
	2.5 g/kg	d-TETRAMETHRIN

For knockdown and residual control of household insects such as ants, carpet beetles, cockroaches, fleas, flies, millipedes, mosquitoes, adult moth and moth larvae, silver fish, slaters, spiders, and wasps.

Effective control of cockroaches and other crawling insects for up to 3 months.

For Indoor and Outdoor use

250 g, 300 g, 400 g, 500 g, 750 g, 1 kg NET

HOW TO USE:

Shake well before use.

Avoid using on plastic surfaces or test a small area first before wider use.

Ensure all sources of ignition are extinguished before spraying.

Indoor: Spray window sills and entry points to house, runs and forage areas, skirting boards, cracks and crevices, under sinks and appliances, around water pipes. Lightly spray carpets against walls.

Outdoor: Spray infested areas such as eaves, window sills, cracks and crevices and around garbage bins and rubbish deposits. Spray regularly to maintain control.

DIRECT KILL – hold can upright and spray insect from a distance of 15-20cm.

RESIDUAL PROTECTION – spray infested surfaces or hiding places such as skirting boards, kitchen cupboards, hot water pipes under sinks, hot water tanks and behind appliances like stoves and microwave ovens. Hold can upright and spray surface from a distance of 15-20cm.

BARRIER PROTECTION – Spray the area surrounding inaccessible places to kill insects when they emerge. Spray obvious entry points such as eaves, window sills, and cracks and crevices in the external walls.

FLYING INSECTS

Clothes Moth: Spray storage shelves, drawers, wardrobes. Clothes should be removed before spraying.

Flies and Mosquitoes: Spray short burst (1-2 seconds) in direction of insect. Spray onto surfaces where mosquitoes and flies land or roost.

Wasps and Flying Ants: Spray wasps and ants directly or spray where they land or roost.

CRAWLING INSECTS

Ants: Spray around and in garbage bins, food disposal areas and entry points.

Carpet beetles: Spray carpets and rugs, particularly under furniture and other objects. Spray also skirting boards and inside cupboards and other storage furniture.

Cockroaches: spray skirting boards, and under and behind cupboards and appliances where cockroaches hide or spray a barrier around inaccessible infested areas.

Fleas: Treat infested carpets or rugs by thoroughly spraying to cover entire surface. Ensure ventilation is adequate.

Silverfish: Spray around bookshelves and in drawers where silverfish hide. Spray architraves and skirting boards to create barriers to movement.

Slaters and Millipedes: Spray directly on slaters and millipedes or in obvious entry points into the house – doorsteps, window sills and cracks and crevices.

Spiders: Spray around eaves and wherever webs are found.

Re-apply when pests reappear.

NOT TO BE USED FOR ANY PURPOSE OR IN ANY MANNER CONTRARY TO THIS LABEL UNLESS AUTHORISED

Safety Directions:

Avoid contact with eyes and skin. If product on skin, wash immediately with soap and water. After use and before eating, drinking or smoking, wash hands, arms and face thoroughly with soap and water.

Caution:

DO NOT spray directly on humans, pets, exposed food, food preparation areas or food utensils. WARNING: INTENTIONAL MISUSE BY DELIBERATELY CONCENTRATING AND INHALING CONTENTS CAN BE HARMFUL OR FATAL.
PROPELLANT: HYDROCARBON

Storage and Disposal:

Keep in a cool place out of the sun. Do not puncture or incinerate this can, even when empty. Recycle empty cans if a facility is available or place used can in household rubbish.

First Aid:

If poisoning occurs, contact a doctor or Poisons Information Centre (phone 13 11 26).
