# DAVID GRAYS GRANULATED SOIL WETTER

**For Lawns, Potted Plants,  
Shrubs & Garden beds**

• EASY TO USE (NO MIXING WITH WATER REQUIRED) • ELIMINATES DRY SPOTS  
• IMPROVES FERTILISER PERFORMANCE • LASTS UP TO 6 MONTHS • BIODEGRADABLE

## Directions

David Grays Granulated AQUA WETT soil wetter is an easy to apply, granulated premium quality wetting agent.

Applying Granulated AQUA WETT to your garden, pot plants hanging baskets & lawns will assist water penetration eliminating run off & dry patches. By using Granulated AQUA WETT, deeper root growth is encouraged, so less frequent watering is required which importantly saves you water, money and time.

Granulated AQUA WETT is effective for up to 6 months when used as directed. More frequent application may be required for problem areas.

## Application rates

**Gardens:** Apply at a rate of 50 gm per square meter & water in well. Ensure that any granules remaining on leaves and foliage are watered off.

**Containers & Hanging Baskets:** Sprinkle Granulated AQUA WETT on as a top dressing and water in thoroughly.

Container size (Diameter)	Top Dressing per Container
200mm	6g
250mm	9g
300mm	18g
400mm	30g
500mm	60g

**Lawns:** Apply to lawns at the rate of 80 gm per square metre.

**Handy Hint:** One cup of Granulated AQUA WETT contains approximately 100g. For best results apply Granulated AQUA WETT in the cool of the day avoiding contact with leaves & plant foliage if possible.
