

MULTI GROW

ORGANIC
2000

Improved soil structure, greater water retention, reduced leaching and weed control are some of the many benefits of using Organic 2000 fertilisers in horticulture. In addition to these "standard fertilizers" Organic 2000 can customise a blend to suit your own particular needs.

Multi-grow is 100% pelletised sawdust bedded poultry manure which has been naturally composted.

Multi-Grow is ideal for;

- Seed bed preparation
- Side dressing of horticultural crops
- Seedling pre-plant
- Under vine side dressing
- Flower beds
- Fruit trees
- Broadcasting

Multi-Grow Benefits:

- Improves soil fertility and health
- Natural balance NPK and trace elements
- Retains moisture and nutrients at root zone
- Reduces leaching
- Spreads easily through standard spreaders
