General Instructions:	
Resistance Warning:	<p>Insecticide Resistance Warning GROUP 3A INSECTICIDE</p> <p>For insecticide resistance management, Py Insecticide Fog is a is a Group 3A insecticide. Some naturally occurring insect biotypes resistant to Py Insecticide Fog and other Group 3A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if Py Insecticide Fog and other Group 3A insecticides are used repeatedly. The effectiveness of Py Insecticide Fog on resistant individuals could be significantly reduced. Since occurrence of resistant individuals is difficult to detect prior to use, C. Rudduck Pty Ltd accepts no liability for any losses that may result from the failure of Py Insecticide Fog to control resistant insects. Py Insecticide Fog may be subject to specific resistance management strategies. For further information contact your local supplier, C. Rudduck representative or local agricultural department agronomist.</p>
