GENERAL INSTRUCTIONS:

Insecticidal Resistance Warning:

GROUP 1A INSECTICIDE

For insecticidal resistance management, David Grays Cricket & Grasshopper Killer Bait is a Group 1A Insecticide. Some naturally occurring insect biotypes resistant to David Grays Cricket & Grasshopper Killer Bait and other Group 1A insecticides may exist through normal genetic variability in any insect population. The resistant individuals can eventually dominate the insect population if David Grays Cricket & Grasshopper Killer Bait or other Group 1A insecticides are used repeatedly. The effectiveness of David Grays Cricket & Grasshopper Killer Bait on resistant individuals could be significantly reduced. Since the occurrence of resistant individuals is difficult to detect prior to use, David Gray & Co. Pty Ltd. accepts no liability for any losses that may result from the failure of David Grays Cricket & Grasshopper Killer Bait to control resistant insects. David Grays Cricket & Grasshopper Killer Bait may be subject to specific resistance management strategies. For further information contact your local supplier, David Gray & Co. Pty Ltd. representative or local agricultural department agronomist.

PROTECTION OF WILDLIFE, FISH, CRUSTACEA AND ENVIRONMENT:

DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

PROTECTION OF LIVESTOCK:

Dangerous to bees.

STORAGE and DISPOSAL:

Store in the closed original container in a cool, dry place out of reach of children. Do not store in direct sunlight. Shake bag until bag is empty. Puncture or shred and bury empty bags in local landfill. If no landfill is available, bury the bag below 500mm in a disposal pit specifically marked and set up for this purpose clear of waterways, desirable vegetation and tree roots. Empty bags and product should not be burnt.

SAFETY DIRECTIONS:-

Product is poisonous if adsorbed by skin contact or inhaled or swallowed. Avoid contact with eyes and skin. Do not inhale dust. Wash hands after use.

FIRST AID:-

If poisoning occurs, contact a doctor or Poisons Information Centre.

Phone Australia 131126.

If swallowed, give one atropine tablet every 5 minutes until dryness of the mouth occurs - if poisoned by skin absorption or through lungs, remove any contaminated clothing, wash skin thoroughly and give atropine tablets as above. Get to a doctor or hospital quickly.
